General Overview
Title 8 of the California Code of Regulations requires that all employers establish and implement an emergency plan, with sufficient numbers of their employees oriented to the details of emergency preparedness and procedures to take positive action during an emergency.

This comprehensive school safety plan has been designed to assist the Incident Command Team before and during an emergency. The guidelines and procedures contained in this safety plan will be put into practice and maintained by designated Oakland School for the Arts (OSA) staff concerned with the safety of students, staff, faculty, and visitors of OSA facilities.

Although these procedures are recommended, common sense should be the guiding principle when facing an emergency situation. No set of procedures can cover every possible scenario.

Building Safety Features
The Oakland School for the Arts Main Campus is located inside the Fox Theater Building on Telegraph Avenue. The school’s main entrance is located at 530 18th Street. The campus was constructed in 2008 and consists of three floors of classroom and office space wrapped around the main theater. The campus is approximately 59,000 square feet in size.

OSA also has an art gallery (VA/DM Space) located at 2018 San Pablo Avenue, a Theater and theater classroom space at 1540 Broadway (Piano Fight). Classroom and performance
space for instrumental music at 1920 Telegraph Ave (the former Newberry Building). Procedures apply to all locations, except where otherwise noted.

The Main Campus, and Newberry Building are equipped with smoke detectors, pull stations, audible alarms, strobe alarms in the corridors near the exits, illuminated exit signs, fire extinguishers, and emergency lighting. Each building has posted evacuation floor plans that indicate the route of exiting the building and identify the location of all fire equipment.

**Fire Alarm & Smoke Detection**
Fire-alarm pull stations and smoke detectors are located throughout the Main Campus, and Newberry Building. Please note that when a pull station is activated, there is an audible alarm.

**Extinguishers**
ABC fire extinguishers are located throughout the buildings. The Director of Facilities and Safety or Campus Security officers check all extinguishers on a monthly basis.

**Public Address – Main Campus and Newberry Building**
All students, employees, and visitors will be alerted to an emergency situation via audible alarm and emergency announcements made over the intercom or through the Catapult EMS app.

The campus and security staff will use two-way radios to coordinate emergency action with all locations.

In the event of an emergency, an audible alarm will be heard. The sound of the alarm is a siren distress signal. White flashing strobe lights will also activate in the common areas for the hearing impaired.

- The intercom or Catapult EMS app will be used as needed during emergencies to provide relocation/evacuation instructions and other information.

Do not evacuate a wheelchair down steps; only evacuate the person who sits in it—use ramps whenever possible. Carry the individual to safety. Once the person is removed from the wheelchair, know that this person may be unable to move from that location or relocate independently.

If time and safety permit, tag the wheelchair with the owner’s name. Attempt to reunite the owner with the wheelchair as quickly as possible.

Service animals must be evacuated with their owners.

Provide verbal instructions and information for people with impaired vision.
Turn lights off and on to attract the attention of people with hearing limitations. (NOTE: After an earthquake, DO NOT turn any switches on or off until it is confirmed that there are no gas leaks.) Check offices, restrooms, classrooms, and other areas of common use.

Section 8. Active Shooter on Campus

An Active Shooter is an individual actively engaged in killing or attempting to kill people in a confined, populated place; in most cases, active shooters use firearms and there is no pattern or method to their selection of victims. Active shooter situations are unpredictable and evolve quickly. Typically, the immediate deployment of law enforcement is required to stop the shooting and mitigate harm to victims. Because active shooter situations are often over within 10-15 minutes, before law enforcement arrives on the scene, individuals must be prepared both mentally and physically to deal with an active shooter situation.

Report The Incident

Have one person call emergency services if it is safe to do so. Be prepared to answer the dispatcher’s questions.

- Call 911 from a landline
- Call (510) 777-3211 from a cell phone
  If it is not safe to talk, keep the phone on so it can be monitored by the dispatcher.
- Call main office (510) 873-8800
- Report the incident/medical emergency to the Catapult EMS app system.

Shelter

- Turn off lights.
- Silence all noise, including cell phones, radios, and computers.
- Sign into the Catapult EMS app system to receive up to date information regarding the emergency.
- Stay out of sight and take cover behind large, thick items or furniture.
- Move to red dot on ceiling
- Remain under cover until law enforcement advises it is safe to evacuate.
- Positively verify the identity of law enforcement as an unfamiliar voice may be the shooter attempting to lure victims from a safe place
- Identify an escape route in the event you are directed to evacuate.

Evacuate

Only if you know with certainty the exact location of the assailant (do not trust unofficial, second hand accounts), and you can visualize an escape route to get yourself and your students safely away from danger.

- Determine an escape route based on where an active shooter may be located.
- Move quickly to a safe place far from the shooter and take cover. Remain there until police arrive and give instructions.
Leave your belongings behind. Keep your hands empty and visible at all times.
Help others evacuate, if possible, but do not attempt to move the wounded.
Evacuate even if others do not agree to follow.
Remain calm. Avoid screaming or yelling as you evacuate.
Follow all instructions of law enforcement.

- Have flashlights and replacement batteries available for the restrooms and other locations with no windows.
- Ask staff and students to have seasonal warm clothing available
- Use surge protectors for all computer equipment, major appliances, and electronic devices
- If you have electric smoke detectors, use a battery-powered smoke detector as a backup.

During An Outage

- According to AT&T, phones connected directly to a phone jack will be operable. Phones that require power from an electrical outlet will not work.

Medication

If your child needs to take any prescription medications, you must have: 1) a doctor’s written and signed note (Parent/Physician Statement) detailing the method, amount, and time schedules for such medication, and 2) a written and signed note (Parent/Physician Statement) from the parent indicating his/her desire that the school assist the student as set forth by the physician in his/her statement. For safety reasons, children are not allowed to have medicine in their classrooms, lunchboxes, or in their pockets. All medication must be dispensed through the office. You may also come and administer medication to your child, if needed. From time to time some parents request that their child be able to take Tylenol or Advil at school. This is permissible only with written parent and doctor permission (Parent/Physician Statement) and the medication must be in its original container.

Immunization Requirements

Students who do not comply with the vaccination requirements shall be excluded from school, meaning, ‘No shots, no school’. State law requires that for unconditional admission to school, all students under 18 shall be fully immunized according to the requirements of the California Department of Public Health. All entering students must be up-to-date with immunizations according to OSA policy and the schedule provided by the California Department of Public Health. As of January 1, 2016, exemptions based on personal beliefs, including religious beliefs, will no longer be an option for the vaccines that are currently required for entry into school in California. If you have a previous personal belief exemption, please reach out to your school to discuss next steps. Students may be exempted from this requirement for medical reasons only. In the event of an outbreak of a disease for which the
child has not been immunized, he or she will be excluded from school for the period of communicability.

Students who do not comply with the requirements shall be excluded from school. The immunization requirements do not prohibit pupils from accessing special education and related services required by their individualized education programs. If you have questions about your child’s immunization record and/or admission status, please contact your child’s school.

**Child Abuse Reporting**

Oakland School for the Arts (OSA) Sexual Abuse Mandated Reporting Policy has been compiled in collaboration with Bay Area Women Against Rape (BAWAR); laura@bawar.org

| Note: | Employees of Oakland School for the Arts (OSA) are required to complete the California Department of Social Services (CDSS) Mandated Reporter Training here: [http://educators.mandatedreporterca.com/default.htm](http://educators.mandatedreporterca.com/default.htm). Under the Child Abuse and Neglect Reporting Act (CANRA), mandated reporters are required to report suspected child 1) physical abuse, 2) sexual abuse, 3) willful cruelty or unjustified punishment, 4) unlawful corporal punishment or injury, and 5) neglect. A product of the Rape Prevention and Education (RPE) Program at OSA (2019-2023), this document refers only to a mandated reporter’s duties to report the sexual abuse of a minor. Please see the online CDSS Mandated Reporter Training (link above) for details regarding the other four reportable types of abuse. |

What qualifies as reportable sexual abuse/assault?

- Examples of sexual abuse/assault
  - Rape; attempted rape; rape in concert (gang); incest; sodomy; fondling or unwanted sexual touching; lewd or lascivious acts upon a minor; forcing a minor to perform sexual acts such as oral sex or penetrating the perpetrator’s body; penetration of the minor’s body, child molestation; exhibitionism; masturbation in the presence of a minor or forcing the minor to masturbate; obscene phone calls or digital interaction; producing, owning, or sharing pornographic images or movies of children
  - Commercially Sexually Exploited Children (CSEC) minors may experience:
    - Indecent touching or exposure; use of sexually explicit language towards a minor; using minors in pornography; forcing or coercing a minor to participate in a sex act; street based child prostitution, live performance involving obscene sexual conduct; stripping; erotic massage; phone sex lines; early forced marriage; sexual slavery

What do I need to know to report?
● Only suspicion of sexual abuse is necessary to make a report (you do not need confirmation of the abuse)

● If there are two or more mandated reporters aware of same situation, only one report is necessary

How do I report?

1. Report to OSA administration by notifying Dean of Students and/or Principal
2. Call Alameda County Department of Social Services immediately or as soon as possible
   a. 510 258 1800
3. Complete a written report via the California Suspected Child Abuse Report (SCAR) form 8572 within 36 hours
   a. https://oag.ca.gov/sites/all/files/agweb/pdfs/childabuse/ss_8572.pdf?
   b. For SCAR form you will need:
      i. Reporting party information (you)
      ii. Victim information
      iii. Involved party information
      iv. General incident information

What protections do I have as a mandated reporter?

● Immunity is granted to mandated reporters (you are not civilly or criminally liable)
● Child Welfare Services (CWS) and/or local law enforcement will likely need your name for the report, but your identity can usually be kept confidential within those agencies/ anonymous to the general public (unless subpoenaed to testify)
● State laws don’t require parent notification
   ○ You are not obligated to disclose any information to parents or another party (besides OSA administration, CWS, and/or local law enforcement agency) after making a report

What will happen after I make a report?

Child Welfare Services (CWS) or local law enforcement will investigate

● They will classify the report as 1) unfounded, 2) substantiated, or 3) inconclusive
● It often takes 3-10 days for CWS to investigate if the child is not in immediate danger

What do I need to know when talking to a minor about a disclosure of sexual abuse?

● Make your mandated reporting duties known to all students prior to any disclosures if possible - some teachers put a sentence about this in their syllabus, or create signs that say “ask me what it means to be a mandated reporter” for their classrooms
● Tell the minor you are glad they informed you and you are sorry about what happened
● Monitor your own responses/ reactions
● Let the minor know it’s okay to talk to you about it
● Assure that the abuse was not the minor’s fault
● Allow them to speak in a free and open manner
● Do not ask leading questions
● Reinstate that you believe the minor
● Make no promises or guarantees about what will happen
● Give the minor some sense of next steps (tell them what making a report looks like, ask them how updated they’d like to be, what support they need, etc.)
● Do not subject the minor to multiple interviews or become an investigator (collect only basic information that the minor shares willingly)

Do I need to report “consensual” sex between minors?

● The age of consent in California is 18, so no sex between minors is legally consensual. However, sex between minors that feels consensual to both parties does not necessarily need to be reported by mandated reporters. Please see the relevant age gap provisions: https://www.healthiersf.org/resources/SHM/Section%20H_Sensitive%20Issues_Confidentiality_Child%20Abuse%20Reporting/CA sexe reporting jul04.pdf

Disciplinary Guidelines & Restorative Practices

The goal of the OSA discipline program is to ensure that student behavior supports an environment in which academic achievement and artistic excellence can flourish. OSA staff will communicate these expectations regularly at student meetings and assemblies. Our application of “discipline” is not simply intended to deliver punishments for breaking rules, it is founded on the practice of community building, self-assessment, and self-discipline.

The assumption is that most minor disruptive behavior and consequences are handled by the classroom teacher, and that students are referred to the Dean or Assistant Principal when they do not meet classroom expectations and procedures.

Restorative Practices

Restorative Practices, when broadly and consistently implemented, will promote and strengthen positive school culture and enhance pro-social relationships within the school community. Restorative practices allow for a shift in practice that results in a culture which is inclusive, builds fair process into decision-making practices, and facilitates students learning to address the impact of their actions through an approach that allows for true accountability, skill building, cooperation, and mutual understanding.

Some Restorative Practices used by teachers (but not limited to):
  ● Conference with student
  ● Phone call home
  ● Parent conference
  ● Move a student’s seat
  ● Meeting at lunch
  ● Staying after class
  ● After school detention
  ● Conference with Dean/Principal
  ● Confiscation of electronic device
Some common consequences used by the Dean or Principal are (but not limited to):
- After school/Saturday detention
- In school suspension

- Behavior Improvement Plan
- Student Contract
- Community Service Hours
- Restorative Circle

§ Oakland School for the Arts prohibits any form of retaliation against any complainant or witness in the complaint process, and will take necessary steps to ensure that the identity of the complainant(s) and witness(es) alleging discrimination, harassment, intimidation, or bullying will remain confidential, as appropriate. - If the complainant disagrees with the school's resolution, he or she is entitled to an appeal. Appeals may be made to the school principal.

**School Discipline**

The Executive Director shall have the ultimate authority to determine appropriate disciplinary action. Direct appeals go to the OSA Board of Directors.

**In-School Service**

- As part of the school’s disciplinary program, students may be required to complete assigned tasks on campus to benefit the school community.

**Detention**

- When a student is assigned a detention they are to report to the designated faculty or staff member where they will work on assigned tasks.
Suspension

- When suspended, students are denied the right to attend classes and any school-related activities, or to access the campus for the designated period of time. Parents may be required to participate in a conference with school administration prior to the student’s return to school. In the case of short suspensions, and/or first-time suspensions, this could take place as a phone conversation. For longer term or repeat suspensions families will be required to meet in person with a school administrator before the student will be allowed to return to the campus. This conversation will include a specific discussion of the student’s offense and the terms of the contract the student may be asked to sign prior to returning to the school. The time allowed to make up missed work will be equivalent to the length of the suspension. For example, a student suspended from school for three (3) days must make up missed work within three (3) days of his/her return to school. Students are required to complete all assignments and tests missed during any period of suspension.

Behavior Improvement Plans

- Behavior improvement plans may be used when a student has repeatedly broken school rules and needs to be monitored by a school administrator. Families will be part of the development of the contract. Such plans may include certain stipulations that the student will be required to meet. Failure to follow the guidelines of the plan may result in loss of school privileges as well as restrictions on performance privileges.

Emergency Situations

- A student may be suspended without a conference if the Principals or designee determines that an emergency situation exists. An emergency situation is defined as a situation determined by the Principals or designee to constitute a clear and present danger to the lives, safety or health of pupils or school personnel. In such situations, the school also reserves the right, with or without contacting parents, to notify local police and allow them to proceed as they deem necessary. If a pupil is suspended without a conference prior to suspension, both the parent/guardian/caregiver and the pupil shall be notified of the pupil’s right to such a conference and the pupil’s right to return to school for the purpose of a conference. The conference shall be held within two (2) school days, unless the pupil waives this right or is physically unable to attend for any reason including, but not limited to, incarceration or hospitalization. The conference shall then be held as soon as the pupil is physically able to return to school for the conference.

Expulsion and Disciplinary Hearings

Violations of the OSA behavior policy will be handled by the school administration, specifically the Assistant Principal and/or Dean of Students. When discipline is warranted that reaches the level of suspension or expulsion, OSA will develop written reports and statements that will be delivered to the family at a formal meeting, which shall also include the student. Students who have been removed from the educational environment for any reason shall be provided with academic work and will be given full credit for completed work. This exclusion will be at the discretion of the Executive Director of the School.
Should a situation occur that reaches the level of expulsion as defined in the student handbook, the Executive Director will prepare a report that will be presented to the OSA Board of Directors in a closed session at the first available board meeting. The OSA Board will make the final determination regarding the disposition of the student. Oakland Unified School District will be informed of the outcome of any such hearing.

Prior to suspension and/or expulsion, the student and the student’s family will be provided with full due process. This means having the opportunity to communicate any information regarding the incident to the school authorities undertaking the investigation, access to all materials and documents related to the case, and full knowledge of all procedures put into motion and the possible outcomes of those procedures. Due process shall also include written notice of the specific circumstances surrounding any disciplinary action and the opportunity to respond to any allegation. Prior to the formalization of any suspension or expulsion proceeding, the student and the student’s family will have the right to meet with the Executive Director of the school and/or the Director’s Designee. Student and parent will have the right to inspect all evidence related to the allegation. The burden of proof will be on the school to present evidence that demonstrates a specific rule or provision has been violated. Notice shall be assumed implicit where the violation is of such egregious nature that it breaks state or federal law or recklessly endangers the safety of the school, the students or the OSA staff.

Student/Family Notification Requirements
Each stage of a disciplinary proceeding requires timely notification of student/family:

Notice of Suspension:
Written or verbal notice informing the student/family of the student’s name, date of offense, offense, and length of suspension. Notice of Extension to Suspension Pending Expulsion--If the school decides to pursue an expulsion, written or verbal notice informing the student/family that the student’s suspension has been extended until the hearing date.

Notice of Expulsion Hearing -- Written notice which informs the student/family of the time, date and location of the expulsion hearing as well as their due process rights and their right to appeal the scheduled date. The charter school will provide the notice of expulsion to the OUSD Office of Charter Schools (OCS) at the same time as family notification so that an OCS representative may attend the hearing.

The Notice of Hearing shall include, at a minimum: ● The date and place of the hearing ● A statement of the specific facts and charges upon which the proposed expulsion is based ● A copy of the school’s disciplinary rules that relate to the alleged violation ● Notice to parents of their obligation to inform a new school district in which the student enrolls of his or her status with the charter school (Education Code section 48915.1(b)) Notice of Decision/Expulsion -- A written document which informs the student/family of the outcome of the expulsion hearing. If the student has been expelled, the notice should include all elements outlined in the Expulsion Documentation Requirements section of this policy.

The recommended practice for OUSD-authorized charter schools is to provide student/families with a notice of expulsion hearing no less than 10 calendar days prior to
the hearing and to conduct the expulsion hearing within 30 days of the expellable offense, barring an extension mutually agreed upon by student/family and school.

Discipline matters that involve students with IEPs or 504 plans shall conform to all applicable state and federal laws. Fair hearing practices and mediation processes, where appropriate, will be adhered to. Student Study Teams and IEP Teams may be involved in this process as well in order to determine how to best meet the needs of the student and family while still following applicable laws and regulations related to discipline violations.

**Disciplinary Records**
The State of California requires the school to specifically identify each suspension or expulsion of a student, by the offense committed, in all of the student’s appropriate official records. This record must be sent to any school in which the student subsequently enrolls. The State also allows for the suspension of any order to expel for a period not more than one calendar year, as well as the expunging of records provided that the student successfully completes a rehabilitation program that is deemed appropriate by the school Principal.

**Law Enforcement and Social Services**
Upon presentation of proper identification to the Principal or designee, police officers and social workers have the authority to remove students from school premises. OSA staff shall take immediate steps to notify the parent or relative of the minor regarding the release of the minor to the officer or social worker, and the place where the minor is reportedly being taken, except when a minor has been taken into custody as a victim of suspected child abuse. In those cases, the school official shall provide the police officer or social worker with the address and telephone number of the minor’s parent.

**Due Process Rights**
In applying the discipline policies, all school staff members are expected to treat all students in a consistent, fair and equitable manner and to assure due process for all students. Parents and students have the following rights:
- Be informed of the policies and rules governing student conduct and discipline
- Be informed of charges of misconduct and the evidence used as a basis for the charges
- Present his/her version of the facts and any supporting evidence or testimony to the appropriate school administrator
- Have a conference with school staff
- Be notified in advance of any disciplinary hearings
- Call witnesses, and appear and be represented in disciplinary hearings

**Liability for Damages and Losses**
Parents or guardians are liable for all the damages caused by the willful misconduct of their minor children that result in damage or injury to school staff, volunteers, students or property. OSA may withhold from students and parents the grades, diplomas or transcripts of the student responsible until such damages are paid or the property is returned. Restitution could include voluntary work/service to the school in lieu of monetary payment.
Prevention of Injury
A school employee may use an amount of force that is reasonable and necessary to quell a disturbance threatening physical injury to a person or damage to property for the purpose of self-defense or to obtain possession of weapons or other dangerous objects within the control of the pupil.

Oakland School for Arts Suicide Prevention Policy

The Governing Board of Oakland School for the Arts recognizes that suicide is a leading cause of death among youth and that an even greater amount of youth consider (17% of high school students) and attempt suicide (over 8% of high school students) (Centers for Disease Control and Prevention, 2015).

The possibility of suicide and suicidal ideation requires vigilant attention from our school staff. As a result, we are ethically and legally responsible for providing an appropriate and timely response in preventing suicidal ideation, attempts, and deaths. SCS acknowledges the school’s role in providing an environment which is sensitive to individual and societal factors that place youth at greater risk for suicide and one which works to create a safe and nurturing culture that minimizes suicidal ideation in students.
Recognizing that it is the duty of Oakland School for the Arts to protect the health, safety, and welfare of its students, this policy aims to safeguard students and staff against suicide attempts, deaths and other trauma associated with suicide, including ensuring adequate support for students, staff, and families affected by suicide attempts and loss. As it is known that the physical, behavioral and emotional health of students greatly impacts school attendance and educational success, this policy shall be paired with other practices that support the emotional and behavioral wellness of students.

In an attempt to reduce suicidal behavior and its impact on students and families, the Oakland School for the Art’s suicide prevention team (made up of the school social worker, school psychologist, an MFT and an MFTa) shall develop strategies for suicide prevention, intervention, and postvention, and the identification of the mental health challenges frequently associated with suicidal thinking and behavior. These strategies include professional development for all school personnel in all job categories who regularly interact with students or are in a position to recognize the risk factors and warning signs of suicide, including substitute teachers, volunteers, expanded learning staff and any other individuals in regular contact with students.

Oakland School for the Arts suicide prevention team shall develop and implement preventive strategies and intervention procedures that include the following:

**Prevention**

1. **Implementation:** The school has designated a suicide prevention team, led by the school psychologist, who will be responsible for planning and coordinating implementation of this policy for the school district. All staff members shall report students they believe to be at elevated risk for suicide to the school suicide prevention coordinator.

2. **Staff Professional Development** All Staff will receive annual professional development on risk factors, warning signs, protective factors, response procedures, referrals, postvention, and resources regarding youth suicide prevention. The professional development will include additional information regarding groups of students at elevated risk for suicide, including those living with mental and/or substance use disorders, those who engage in self-harm or have attempted suicide, those in out-of-home settings, those experiencing homelessness, American Indian/Alaska Native students, LGBTQ+ (lesbian, gay, bisexual, transgender, and questioning) students, students bereaved by suicide, and those with medical conditions or certain types of disabilities. Additional professional development in risk assessment and crisis intervention will be offered to school employed mental health professionals.

3. **Youth Suicide Prevention Programming** Developmentally-appropriate, student-centered education materials will be integrated into the curriculum of all middle and high school health classes. The content of these age-appropriate materials will include: 1) the importance of safe and healthy choices and coping strategies, 2) how to recognize risk factors and warning signs of mental disorders and suicide in oneself
and others, 3) help-seeking strategies for oneself or others, including how to engage school resources and refer friends for help. In addition, schools may provide supplemental small-group suicide prevention programming for students.

4. Publication and Distribution This policy will be distributed annually and included in all student and teacher handbooks and on the school website.

**Intervention Assessment and Referral**

When a student is identified by a staff person as potentially suicidal, i.e., verbalizes about suicide, presents overt risk factors such as agitation or intoxication, the act of self harm occurs, or a student self refers, the student will be seen by a school employed mental health professional within the same school day to assess risk and facilitate referral. If no mental health professional is available, a school administrator will fill this role.

For youth at risk:

1. School staff will continuously supervise the student to ensure their safety.
2. The principal and school suicide prevention team coordinator will be made aware of the situation as soon as reasonable possible.
3. Someone from the school administration or mental health team will contact the student’s parent or guardian and will assist the family with urgent referral. When appropriate, this may include calling emergency services or bringing the student to the local emergency department, but in most cases, will involve setting up an outpatient mental health or primary care appointment and communicating the reason for referral to the healthcare provider.
4. Staff will ask the student’s parent or guardian for written permission to discuss the student’s health with outside care, if appropriate.

**Action Plan for In-School Suicide Attempts**

If a suicide attempt is made during the school day on campus, it is important to remember that the health and safety of the student and those around him/her is critical. The following steps should be implemented:

1. Remain calm, remember the student is overwhelmed, confused, and emotionally distressed;
2. Move all other students out of the immediate area;
3. Immediately contact the administrator or suicide prevention liaison;
4. Call 911 and give them as much information about any suicide note, medications taken, and access to weapons, if applicable;
5. If needed, provide medical first aid until a medical professional is available;
6. Parents/guardians/caregivers should be contacted as soon as possible;
7. Do not send the student away or leave them alone, even if they need to go to the restroom;
8. Listen and prompt the student to talk;
9. Review options and resources of people who can help;
10. Be comfortable with moments of silence as you and the student will need time to process the situation;
11. Provide comfort to the student;
12. Promise privacy and help, and be respectful, but do not promise confidentiality;
13. Students should only be released to parents/guardians/caregivers or to a person who is qualified and trained to provide help.

Action Plan for Out-of-School Suicide Attempts
If a suicide attempt by a student is outside of Oakland School for the Arts property, it is crucial that the school protects the privacy of the student and maintain a confidential record of the actions taken to intervene, support, and protect the student. The following steps should be implemented:

- If a staff member becomes aware of a suicide attempt by a student that is in progress in an out-of-school location, the staff member will call 911 immediately.
- They will then inform the student’s parent/guardian as well as the suicide prevention coordinator.

If a staff member becomes aware of an attempt after the fact, the school will:

- Contact the parents/guardians/caregivers and offer support to the family
- Discuss with the family how they would like the school to respond to the attempt while minimizing widespread rumors among teachers, staff, and students;
- Obtain permission from the parents/guardians/caregivers to share information to ensure the facts regarding the crisis is correct;
- Designate a staff member to handle media requests;
- Provide care and determine appropriate support to affected students;
- Offer to the student and parents/guardians/caregivers steps for reintegration to school.

Supporting Students after a Mental Health Crisis
It is crucial that careful steps are taken to help provide the mental health support for the student and to monitor their actions for any signs of suicide. The following steps should be implemented after the crisis has happened:

1. Treat every threat with seriousness and approach with a calm manner; make the student a priority;
2. Listen actively and non-judgmental to the student. Let the student express his or her feelings;
3. Acknowledge the feelings and do not argue with the student;
4. Offer hope and let the student know they are safe and that help is provided. Do not promise confidentiality or cause stress;
5. Explain calmly and get the student to a trained professional, guidance counselor, or designated staff to further support the student;
6. Keep close contact with the parents/guardians/caregivers and mental health professionals working with the student.

Re-Entry to School After a Suicide Attempt

OSA Comprehensive School Safety Plan 2023/2024 – Updated 03/1/2023
A student who threatened or attempted suicide is at a higher risk for suicide in the months following the crisis. Having a streamlined and well planned re-entry process ensures the safety and wellbeing of students who have previously attempted suicide and reduces the risk of another attempt. An appropriate re-entry process is an important component of suicide prevention. Involving students in planning for their return to school provides them with a sense of control, personal responsibility, and empowerment.

The following steps shall be implemented upon re-entry:

1. Obtain a written release of information signed by parents/guardians/caregivers and providers;
2. Confer with student and parents/guardians/caregivers about any specific requests on how to handle the situation;
3. Inform the student’s teachers about possible days of absences;
4. Allow accommodations for student to make up work (be understanding that missed assignments may add stress to student);
5. Mental health professionals or trusted staff members should maintain ongoing contact to monitor student’s actions and mood;
6. Work with parents/guardians/caregivers to involve the student in an aftercare plan.

Postvention
The crisis team will develop an action plan to guide school response following a death by suicide. A meeting of the crisis team to implement the action plan should take place immediately following news of the suicide death. The action plan may include the following steps:

1. Verify the death. Staff will confirm the death and determine the cause of death through communication with a coroner’s office, local hospital, the student’s parent or guardian, or police department. Even when a case is perceived as being an obvious instance of suicide, it should not be labeled as such until after a cause of death ruling has been made. If the cause of death has been confirmed as suicide but the parent or guardian will not permit the cause of death to be disclosed, the school will not share the cause of death but will use the opportunity to discuss suicide prevention with students.
2. Assess the situation. The crisis team will meet to prepare the postvention response, to consider how severely the death is likely to affect other students and to determine which students are most likely to be affected. The crisis team will also consider how recently other traumatic events have occurred within the school community and the time of year of the suicide.
3. Share information. Before the death is officially classified as a suicide by the coroner’s office, the death can and should be reported to staff, students, and parents/guardians with an acknowledgement that its cause is unknown. Inform the faculty that a sudden death has occurred, preferably in a staff meeting. Write a statement for staff members to share with students. The statement should include the basic facts of the death and known funeral arrangements (without providing details of the suicide method), recognition of the sorrow the news will cause, and
information about the resources available to help students cope with their grief. Public address system announcements and school-wide assemblies should be avoided. The crisis team may prepare a letter (with the input and permission from the student’s parent or guardian) to send home with students that includes facts about the death, information about what the school is doing to support students, the warning signs of suicidal behavior, and a list of resources available.

4. Avoid suicide contagion. It should be explained in the staff meeting described above that one purpose of trying to identify and give services to other high risk students is to prevent another death. The crisis team will work with teachers to identify students who are most likely to be significantly affected by the death. In the staff meeting, the crisis team will review suicide warning signs and procedures for reporting students who generate concern.

5. Initiate Support services. Students identified as being more likely to be affected by the death will be assessed by someone from the mental health and wellness team to determine the level of support needed. The team will coordinate support services for students and staff in need of individual and small group counseling as needed. In concert with parents or guardians, crisis team members will refer to community mental healthcare providers to ensure a smooth transition from the crisis.

6. Develop memorial plans. The school should not create on-campus physical memorials or funeral services as they might sensationalize the death and encourage suicide contagion. School should not be canceled for the funeral. Any school-based memorials (e.g small gatherings) will include focus on how to prevent future suicides and prevention resources will be available.

7. External communication. The executive director will be the sole media spokesperson. Staff will refer all inquiries from the media directly to them.
